## Sharpening Device KSG 470

The KSG sharpening device processes the blades gently with short setup times thanks to its intelligent sharpening technology. The sharpening unit is positioned via a sighting tool. The KSG sharpening device guarantees rapid, reproducible sharpening and has a long service life thanks to the sharpening disks which are not actively driven. A counter is integrated for individual specification of sharpening cycles.

### Advantages

- Long service life thanks to non-actively driven sharpening discs
- Sharpening unit positioning via sighting tool
- Gentle processing due to clever sharpening technology
- Quick, reproducible sharpening
- Counter for the individual specification of sharpening cycles

## Technical Data
