

TBS-100 FCXL

RANDOM HEIGHT CASE SEALER

Combi offers a reliable random case sealing solution for cases with similar width but varying height and length. Ideal for egg producers, multiple lines of packed cases can feed into this one case sealer. A light curtain senses the height of the incoming case, communicates to the servo, and the height of the top taping head is automatically adjusted. 3M™ Accuglide™ tape heads efficiently seal the top and bottom of the cases, while tape roll changes are easy to perform. Using the same heavy duty tubular steel frame as other Combi systems, the TBS is built tough for years of top performance.

FEATURES:

- Heavy duty tubular steel frame with lifetime guarantee
- Height sensing light curtain
- Case infeed metering gate
- Servo height adjustment
- Auto case length sensors for flap kicker
- Full guarding package with safety interlocks and hinged doors
- 3M™ Accuglide™ top and bottom tape heads
- Allen-Bradley™ PLC with servo capabilities

TBS-100 FCXL

RANDOM HEIGHT

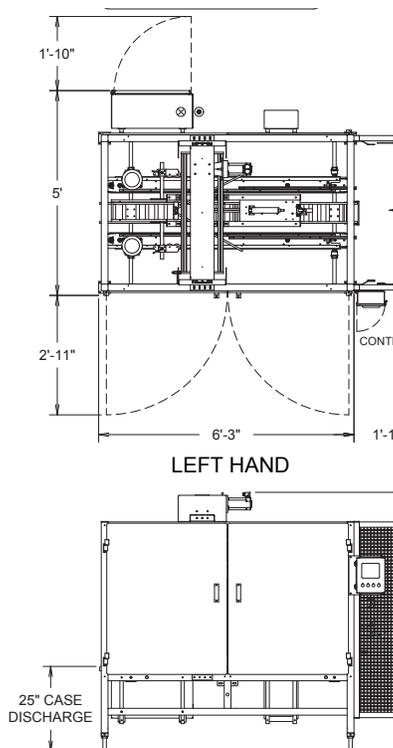

AVAILABLE OPTIONS:

- 3" Wide Tape Head
- Stainless Steel Construction
- Modifications to Discharge Elevations
- Heavy Duty Locking Casters
- Low Tape/No Tape Alarm Kit
- Spare Tape Heads
- Spare Parts Kit
- Voltage other than 240V
- Bypass Mode
