

RS Cryo SST Compact Tunnel Freezer

The RS Cryo Cryogenic Compact Tunnel Freezer has a much smaller footprint, yet provides greater processing flexibility. You get the quality you need and drive down processing costs while saving space and time. Today's competitive food markets demand exceptional product quality. With the cryogenic tunnel freezer you seal in freshness and flavor- and minimize dehydration- by fast freezing in an inert environment. This is the ideal method to quickly and efficiently cool or freeze a huge range of products- meats, seafood, pasta, vegetables, even baked goods. Not only is the initial investment significantly lower than that for a mechanical freezing system, the Compact Tunnel Freezer takes less time to deliver, install, and get up to speed. Choose between CO2 or Nitrogen gas, 13.5' long to 60' long Compact Tunnel Freezer, and 1 tier or 3 tier. Call RS Cryo for assistance.

NEW
Stainless Steel
Freezer

**Available in lengths starting at 13.5 ft up to 60 ft*

RS Cryo Compact Tunnel Freezer offers additional throughput while still keeping the overall footprint small. There are doors on both sides of the freezer for easy cleaning. Choose between our 1 tier or 3 tier system. The 3 tier Compact Tunnel Freezer offers even more product throughput while keeping the Tunnel Freezer the same size!

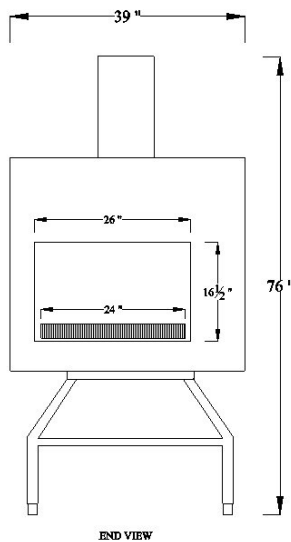

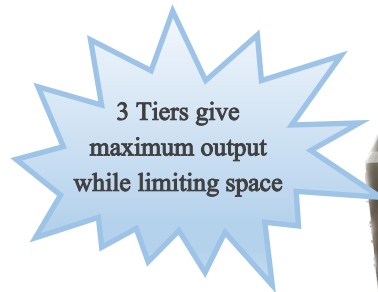

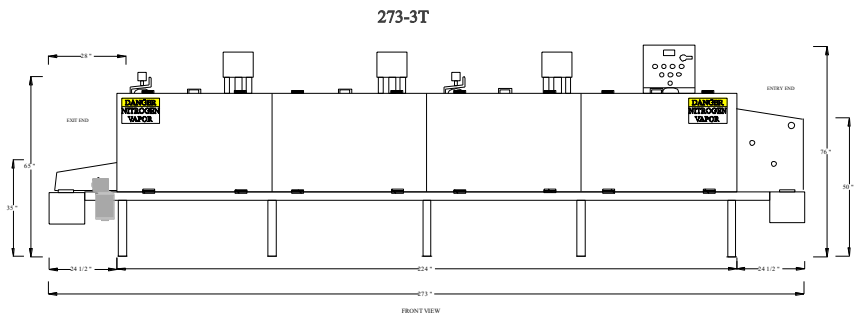

161-1T

- ⇒ USDA Approved
- ⇒ Safety rated electrical components
- ⇒ O2 Monitor with alarm & auto shut-off
- ⇒ Proportional Valve makes it easy to tune & operate
