

Slicing

IPS 3000 MK-II Retail pack slicer.

IPS 3000 with new features

The popular IPS 3000 slicer for production of retail packs is now available in a new design with several improved features.

The slicer has a new user interface, which will make the operation of the slicer easy and safe for employees at all levels.

The pre weighing scale has been built in to the slicer, which will make cleaning easier and reduce the risk of damages caused by water.

The automatic board dispenser has been modified making it far more flexible, as it is capable of handling various types of boards and trays.

The new IPS 3000 MK-II offers:

- New user interface for easy & safe operation
- New board dispenser
- New built in pre weighing scale
- Extremely high accuracy on the final product
- Better utilization of the salmon, less waste & give away
- Boards with fixed weight & fixed count of slices
- Boards with fixed weight with variable count of slices
- Excellent placing of the slices on the boards
- Less handling - lower risk of bacteria contamination
- Various set ups of packing lines available
- Compatible with Innova
