

CARTONTRACKER™

ENTIRELY AUTOMATED SERIALIZATION STATION,
TO ACCURATELY AND EFFICIENTLY PRINT AND INSPECT CARTONS

PHARMA

MEDICAL DEVICES

OPTEL's CartonTracker™ handles the printing and verification of each carton and ensures accurate serialization identification.

The **CartonTracker** is built with an scalable configuration, enabling item-level serialization and converting to serialization and aggregation. As part of OPTEL's **TrackSafe™** product family, the **CartonTracker™** connects in real time with the OPTEL **LineMaster™** to verify and report serial numbers.

The **CartonTracker™** is part of OPTEL's open architecture, which connects to various IT systems or third-party equipment.

We understand that modifying your process can be challenging. To overcome this challenge, we've leveraged all the experience and expertise that comes with more than 30 years of expertise and thousands of successful serialization integration projects around the world.

KEY FEATURES

- Complete reporting tool to LineMaster™
- Up to 400 cartons per minute
- Serialized and non-serialized capabilities
- Replaces embossed information
- Inspections on 1 side (front or back)
- Built-in ejection bin
- Ejected products can be retrieved during operation

BENEFITS

- Precise and robust carton handling
- Toolless changeover
- Turnkey installation
- Enables 21 CFR Part 11 compliance
