

LUCKY-LINKER by Vemag

Power, setup and go!

Take the step up from a piston filler to a continuous vacuum filler.

The LUCKY-LINKER by Vemag is a small, economical, all-in-one vacuum stuffer, portioner and linker that can easily produce your entire range of fresh and cooked sausage.

The LUCKY-LINKER by Vemag is an economical and extremely versatile all-in-one vacuum stuffer, portioner and linker. The system includes everything required for sausage production:

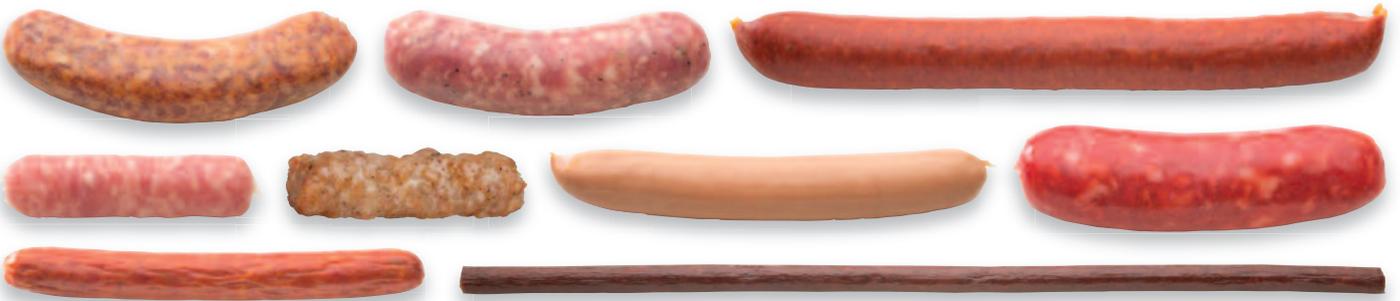

- LUCKY-LINKER vacuum filler with double-screw technology
- Built-in portioner
- Built-in linker
- Casing holder
- One linker horn set
- One straight filling horn

The one-piece hopper has a 40 liter (100 lb.) capacity. With its see-through cover, you can always determine how much product is left in the hopper.

The LUCKY-LINKER by Vemag is equipped with everything you need to make sausage. Whether straight-filling, clipping, or linking collagen, cellulose or natural casings, this machine meets all of your needs.

Cleaning is quick and easy with commercially available cleaning materials.

Vemag double screws are the heart of the filler. They can handle large particulates without damage, thus producing the best possible end product without smear. The whole pumping system is made of corrosion-free materials. Most importantly, the double screws are made from stainless steel, ensuring long life and exact portioning.

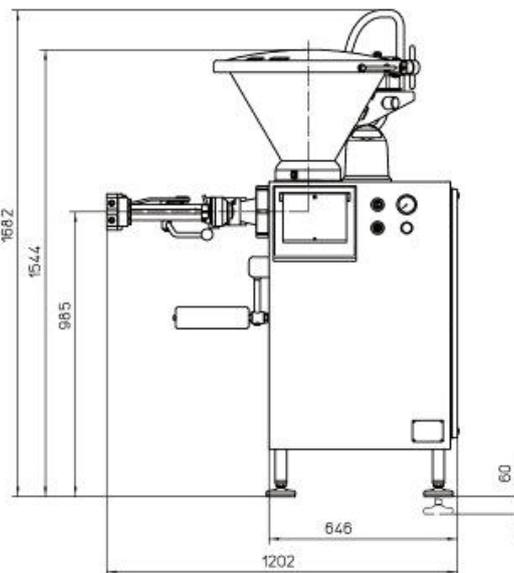

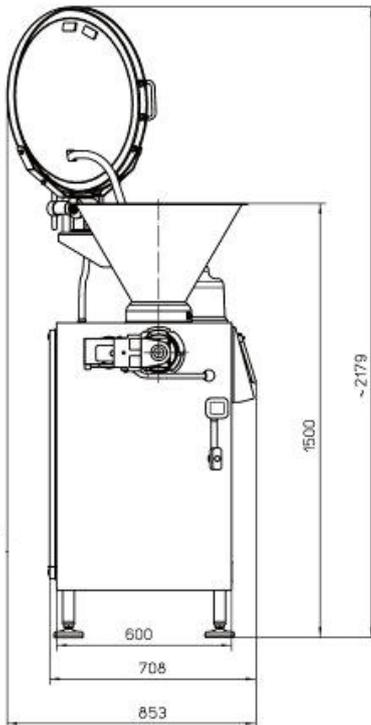

The LUCKY-LINKER by Vemag easily produces all types of fresh and cooked sausage in natural, collagen or cellulose casings.

Technical Data

LUCKY-LINKER by Vemag	
Filling rate:	up to 2000 kg/h (4400 lbs/h)
Portion weight:	1- 99,999 grams in increments of 1 gram
Portioning speed:	up to 320 portions/min. (depending on weight, attachment, and number of twists)
Twists:	0-10, infinitely adjustable
Vacuum System:	16 m ³ /h
Hopper capacity:	40 liters (90 lbs)
Total weight:	approx. 290 kg (640 lbs.)
4.25 kW	
Current consumption at:	
220V / 3 phase / 60 cycles:	14 amps
400V / 3 phase / 50 cycles:	8 amps
