

CS-10TWWA

Automatic Full Sheet Slicing

FoodTools
Industry Leaders in Portion Control

CS-10TWWA

Average Speed:

Up To 120 Full Sheets Or 240 Half Sheets
Per Hour

Function:

This full sheet cutting model will slice a variety of frozen products in or out of the container. The machine features automatic indexing into cut positions and automatic rotation from x to y axis cuts. This model is best for bakeries slicing 100-150 products per hour.

Benefits

- Achieve a return on investment through labor savings and improved portion quality and consistency
- Perfectly portion products every time no matter who uses the machine
- Fully automatic cutting process so the machine operator can load the next sheet onto a cutting board while the current sheet is being cut
- Accessories are easily changed to portion products into different sizes
- Can slice products outside of the pan or inside the pan, box, or container
- Reliable and durable equipment backed by manufacturer's warranty
