SWF TF 400V Tray Formers construct one-piece trays. Tray designs can be a very economical way to package your product. Design variations such as top flaps, diagonal corner, and display features can provide a unique and cost effective solution.

SWF TF 400V Tray Former

The SWF brand of bliss and tray formers dates back to the 1940's. With an install base of more than 5,000 machines worldwide, this versatile equipment can form hundreds of different styles of tray and bliss cases. Featuring a small footprint, these ruggedly built machines require little floor space and are easily moved on their casters or by fork lift to accommodate plant changes as necessary. With mechanical simplicity and durability as a primary focus, long life cycles are common among our installations.
