## Average Speed:

100-150 Products Per Hour

## Function:

This model will portion a variety of frozen or chilled round products. User-friendly operation requires little skill to produce portions in consistent sizes at high production speeds. Divider Inserts are deposited between each wedge in one smooth operation while cutting the slices. This model works well for bakeries producing from 100-150 cakes per hour.

## Benefits

- Achieve a return on investment through labor savings and improved portion quality and consistency
- Perfectly portion cakes every time
- Automatic Cycle option speeds up cycle time for cakes not using Divider Inserts
- Divider Inserts can be used to improve the professional look and feel of the product
- Compact design with wheels makes the machine perfect for locations with large production and limited space
- Reliable and durable equipment backed by manufacturer's warranty
